

Every Climate Calls for a Tru-Defense® Door System

... Your Best Defense Against Nature's Worst

A Therma-Tru® fiberglass entry or patio door with the Tru-Defense® door system enhances performance in any climate. With components designed and engineered to work together, a Tru-Defense door system maximizes the seal between the door and the frame to better resist the damaging effects of air and water infiltration. And with a full-system warranty Rider up to \$2,000, a Tru-Defense door system is your best defense against nature's worst.
