

Always Make a Great Entrance

... With Smooth-Star®

- Smooth, ready-to-paint surface with high-definition panel embossments
- Won't dent or rust like steel, or warp, split, crack or rot like wood
- Engineered for years of trouble-free performance
- Polyurethane foam core offers as much as four times the insulation value of most wood doors*
- A better alternative to steel doors

*Comparison of fiberglass to wood doors (both without glass)

(IMPRINT AREA)

S139 door with S139SL sidelites - Sedona glass
