

## Therma-Tru announces launch of PrismaGuard™ premium stain finishing system

MAUMEE, OHIO – Therma-Tru® Doors' new PrismaGuard stain finishing system offers a high-end, low-maintenance finish for natural beauty that protects from everyday wear and tear.

The stain brings the authentic look of wood to life with rich tones that add dimension and are designed to enhance the wood grains of Therma-Tru fiberglass doors.

“PrismaGuard stain takes the idea of combining the beauty of wood and the durability of fiberglass to a whole new level,” said Donna Contat, director of product management at Therma-Tru. “The stain takes advantage of the realistic wood grains and deep embossments of a Therma-Tru fiberglass door and applies beautiful, nature-inspired stains and unparalleled strength.”

The finishing system allows homeowners to embrace their unique style through the look of natural wood. The stain is offered in a nature-inspired palette of nine base colors: Wildflower Honey, Rustic Clay, Barley, Driftwood, New Earth, Autumn Harvest, Redwood, Mulberry and Raven. The even, consistent color reflects the natural beauty of wood across the entire door surface.

PrismaGuard is handcrafted and professionally applied using a five-step process in a controlled environment for consistent results, and it's backed by a 10-year limited finish warranty.

Introduced in select markets during 2017, PrismaGuard stain will now be available in most markets across the country in 2018.
