

Decorative & Specialty Glass Collection

THERMA TRU®
DOORS

Welcome home the beauty of glass.

2

Home begins at the door.

Choose a Therma-Tru® door system with decorative glass for a beautiful, durable entrance that showcases your high standards for style, quality and craftsmanship. Our wide array of glass designs – from simple to intricate – features selections to complement any home.

Year after year, Therma-Tru is the brand of exterior doors most preferred by building professionals.* With our glass, you get the quality and reliability that can only come from Therma-Tru.

3

Entryways come to life with Therma-Tru glass.

- Numerous glass textures, shapes, colors and coming options complement any Therma-Tru door, and provide flexibility to match your personal style.
- We research our glass designs to ensure they are highly rated in consumer preference.
- We have decades of experience and technical know-how in creating quality glass designs that deliver optimal performance.
- Therma-Tru decorative glass is handcrafted and built with all-glass bevels.
- Backed by a lifetime limited warranty when installed in a fiberglass door system to ensure peace of mind.
- All interior and exterior glass panels, including Low-E and clear glass, are tempered for added safety.

*Brand Use Study, 2017 *Builder* magazine.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Classic-Craft® Premium Entryway Glass

Thanks to 12 exclusive decorative glass families and multiple sidelite and transom configurations, you'll find the ideal style to enhance any home when you select a Classic-Craft premium entryway. Close attention to detail produces truly distinctive designs that showcase and bring your entryway to life.

• Beautiful in every way.

More than 10%
wider glass*

**Classic-Craft
Premium Glass**

Standard Glass

- Classic-Craft glass is more than 10 percent wider*, welcoming more light into the home and creating a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- All Classic-Craft clear glass options are Low-E, providing long-term energy efficiency.
- Most decorative, privacy and textured glass options feature triple-pane construction that helps increase energy efficiency.
- Any Therma-Tru glass added to a Classic-Craft entryway is covered by the same outstanding lifetime limited warranty.
- All Classic-Craft sidelites feature EnLiten™ flush-glazed designs. The EnLiten flush-glazed process integrates the glass into the door itself during the manufacturing process, eliminating the need for a separate lite frame and providing a high-performance weather seal.

*Comparison of Classic-Craft to other standard fiberglass doors with similar styles. Visit www.thermatru.com for details

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Divided Lites

Enhance the beauty of any home with divided lites for entry and patio doors. Increase curb appeal by coordinating with window grid patterns for a cohesive look that suits the home's architectural details.

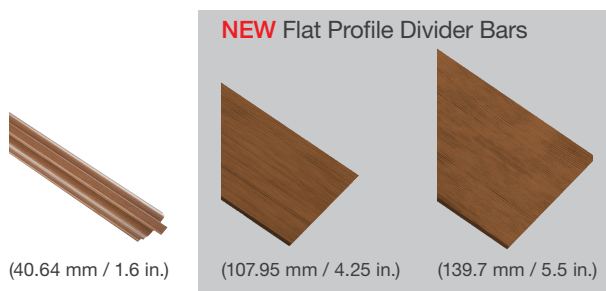

Simulated Divided Lites (SDLs)

Wood-grained or smooth SDL bars adhere to the interior and exterior panes of tempered glass and can be stained or painted to complement the door and home.

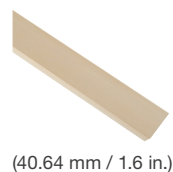

Removable Wood Grilles

Removable wood grilles snap on and off the interior pane of tempered glass for easy cleaning. Can be stained or painted to complement the home décor.

Fiber-Classic®, Smooth-Star®, Profiles™, Traditions, Pulse® Doorglass

Therma-Tru® Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors offer a variety of decorative glass options designed to meet any taste. This selection is inspired by various home and architectural styles, from Victorian to Contemporary. And whether you need greater energy efficiency or privacy, there's an option to suit you.

Great style for any home.

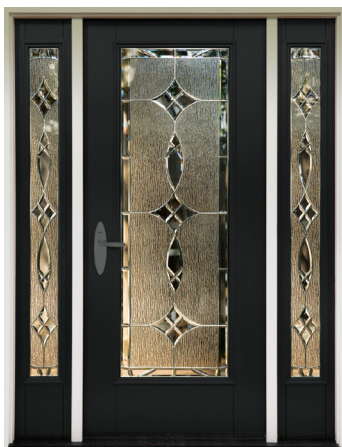

- 15 decorative glass designs offer a look that matches any home and homeowner's style.
- Invite light into the home for a more brilliant interior with EnLiten™ flush-glazed designs featuring 25"-27"-wide glass, or 22"-wide glass in a Lip-lite frame.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.
- A wide variety of glass that meets ENERGY STAR® requirements is available.

Triple-Pane Construction

All triple-pane decorative, privacy and textured glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

Internal Blinds

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with the simplicity of a single handle.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Choose Low-E glass for exceptional energy efficiency, or standard clear glass.
- A convenient single-hand operator opens, closes and tilts the blinds.
- Privacy bars eliminate visibility into or out of the home, as well as reduce sun glare.

Impact-Rated Glass

Therma-Tru's Impact-rated glass meets coastal region codes and regulations,* offering excellent performance in extreme weather conditions while providing added protection.

- Used for products in coastal applications, Therma-Tru measures the resistance of the glass to flying debris by firing a 2" x 4" wood stud at a speed of 34 mph to help prevent damage inside the home from severe weather.
- Available in 14 decorative glass options, 6 privacy and textured designs, as well as clear glass.
- Special laminated glass construction helps protect the interior of the home.
- Tested to meet code requirements in coastal areas, including parts of Florida, Texas, and North and South Carolina.*
- Some glass and door configurations are available for use in High Velocity Hurricane Zone (HVHZ) and Wind-Borne Debris Regions (WBDR).
- Designed to withstand wind forces up to 175 mph (DP-55) for high-wind and coastal applications when paired with an approved Therma-Tru HVHZ Impact-rated door. Able to withstand wind forces up to 167 mph (DP-50) in a Therma-Tru non-HVHZ Impact-rated door.

Therma-Tru. Impact Lip-Lite Frame

The Therma-Tru Impact Lip-lite frame features durable, paintable aluminum construction with an attractive scrolled profile for a thin, sleek appearance and a screw channel cover to hide unsightly screws.

Divided Lites

Enhancing beauty with decorative appeal.

Enhance the beauty of any home with a variety of divided lite options for entry and patio doors. Coordinate with the home's window patterns for a cohesive look and increased curb appeal. Choose from Colonial, Craftsman or Prairie styles to suit the home's architectural details. Available glass options include elegant privacy and textured, energy-efficient Low-E and clear glass.

Simulated Divided Lites (SDLs) with Grilles Between Glass (GBGs)

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- SDL bars layered over GBGs create a more authentic divided lite look.
- Wood-grained or smooth textures can be stained or painted to complement the door and home.
- We recommend applying SDLs over bronze GBGs with flat bars to achieve the most authentic divided lite look.

Grid Pattern Examples

Simulated Divided Lites (SDLs)

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- Wood-grained or smooth textures can be stained or painted to complement the door and home.

Grid Pattern Examples

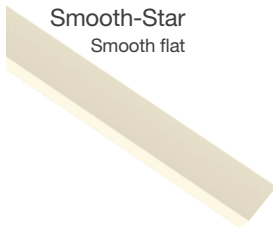

SDL Bar Options*

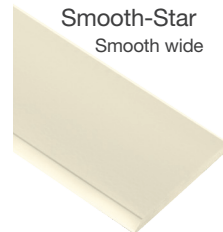

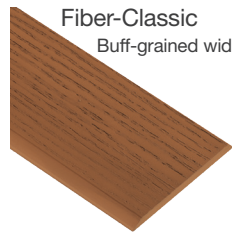

Available for EnLiten™ flush-glazed designs only.

(28.6 mm / 1.125 in.)

(28.6 mm / 1.125 in.)

(88.9 mm / 3.5 in.)

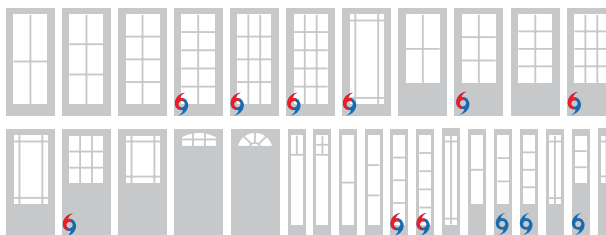

*See your Therma-Tru seller for a complete list of bars and configurations available for each door collection. Not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight. For additional Wind-Borne Debris Region (WBDR) and High-Velocity Hurricane Zone (HVHZ) details, see page 37. Please see options for divided lites in our Classic-Craft collection on page 17.

Grilles Between Glass (GBGs)

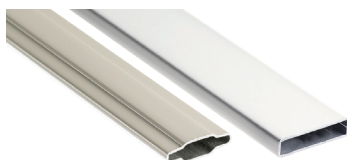

- Thermally sealed between two panes of tempered glass.
- Get a divided lite look with the convenience of a smooth, easy-to-clean glass surface.
- Choose contour bars for a traditional look or flat bars for contemporary appeal.

EnLiten™ Flush-Glazed Designs

For Classic-Craft®, Fiber-Classic® & Smooth-Star® Doors & Sidelites

Simplified beauty. Resilient designs. With clean lines and seamless construction, EnLiten flush-glazed designs are perfect for today's homes. Built for long-term performance, these doors and sidelites feature the sleek looks homeowners want and the stylish around-the-home solutions they need.

Modern-Style Front Entry

See the difference.

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

Flush-Glazed Glass

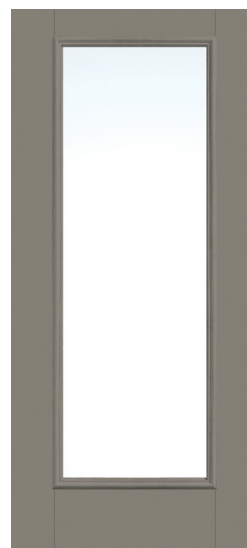

Lip-Lite Frame

Maximum views.

Create an airy, open feeling in the home with larger daylight openings. EnLiten™ flush-glazed designs offer up to a 16% increase in visible glass area than conventional lite frames.

Flush-Glazed Glass

Lip-Lite Frame

*Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.
 **Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval.
 Impact-rated products not available.

Colonial-Style Utility Door

Traditional-Style Patio Doors

Craftsman-Style Front Entry

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This delivers a clean seamless look with no lite frame or screw plugs, and reduces the potential for air and water infiltration, among other benefits.

Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

11% More Energy Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

Withstands Winds Up to 167 mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

Warranty riders for peace of mind.

EnLiten™ Flush-Glazed Rider for Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

EnLiten™ Flush-Glazed Rider for Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.

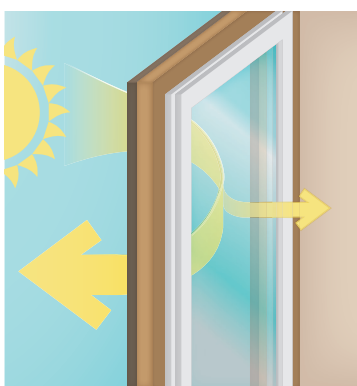

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80 percent of Therma-Tru® door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

- Most Therma-Tru decorative glass features triple-pane construction, creating an exceptional thermal barrier.
- Factory-coated Low-E glass comes standard for Classic-Craft® and Pulse® Ari. Low-E glass is also available as an option for clear glass in all other door families to deliver exceptional energy efficiency.

In cold weather, Low-E glass can help reduce the loss of heat by reflecting the heat back inside the home.

In warm weather, Low-E glass reflects the sun's rays off of the glass, helping to keep the interior of the home cool.

Quality Testing

Multiple rigorous tests help ensure that our glass meets the toughest quality and performance expectations:

Our Slam Test requires a glass-fitted door to be slammed repeatedly, confirming the durability and performance of the glass and door.

Exposing our glass to weather-like conditions for our Frost Point Test helps verify that moisture and condensation will not get trapped inside.

Lifetime Limited Warranty

We place a lot of emphasis on achieving the highest level of customer satisfaction. That's why Therma-Tru fiberglass door systems carry a lifetime limited warranty. Should any issues arise during or after installation, we'll address them in a professional, timely manner.

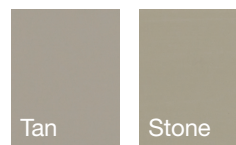

Special Quote Program

Don't sacrifice the look you want. In addition to thousands of standard glass choices, we offer additional glass options through our Special Quote Program to help you find the right look for virtually any home.
