Impact-Rated Internal Blinds

for Fiber-Classic®, Smooth-Star®, Profiles™ & Traditions Doors

THERMA TRU®
DOORS

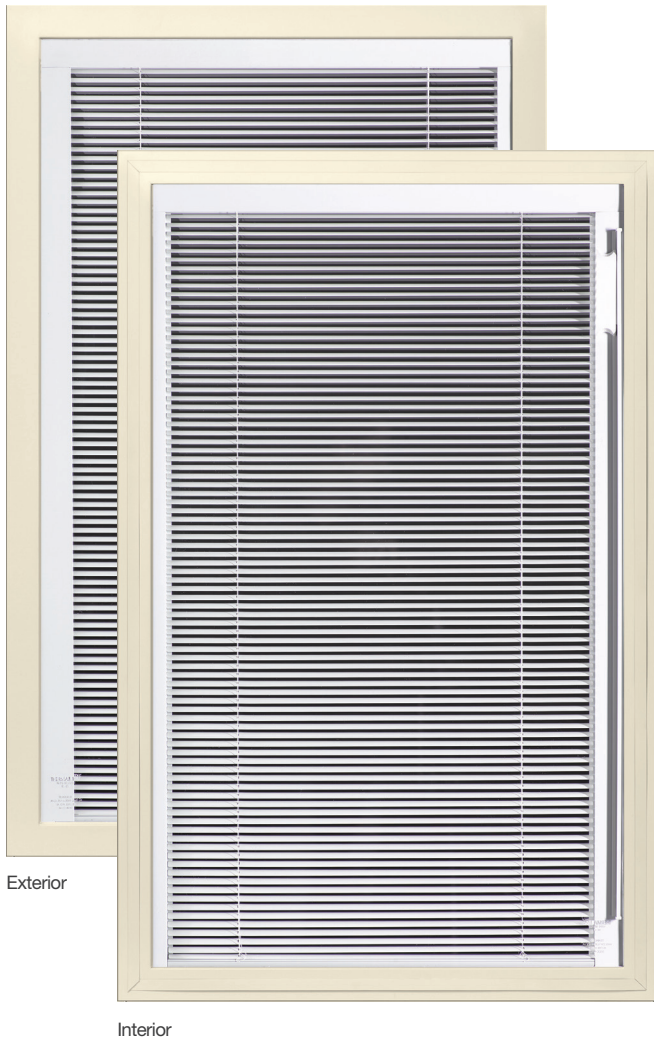

Design and functionality.

Enjoy privacy at your convenience with a cordless blind enclosed between glass, now available in Impact-rated options for every opening around the home. Control the desired level of light and privacy with the simplicity of a single handle.

Available March 4, 2019

Tru-Advantages

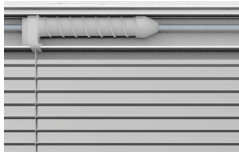

- **Therma-Tru's Impact-rated doors and sidelites meet high-wind and coastal region codes and regulations, offering excellent performance in extreme weather conditions while providing added protection.***
 - Constructed to help protect the interior of the home from flying debris and high winds associated with tropical storms and hurricanes.
- **Protected between two panes of glass for enhanced safety and performance.**
 - Feature special laminated glass construction and a durable, paintable Impact-rated lite frame.
 - Blinds remain dust free, and glass is easier to clean than traditional blinds.
 - With no dangling cords, this is a kid- and pet-friendly choice.
- **Versatile product for broad appeal.**
 - Available in wood-grained, stainable and smooth, paintable doors and sidelites.
 - Ideal for use in areas of the home where controllable privacy is desired, including the back door and patio.
 - Feature a flat profile lite frame and offer a simple look that's the perfect complement to any home's architectural style.

Design & Functionality

Gear Pulley Operating System
Use of a cog belt and inclusion of ball bearings provide a durable, smooth range of motion and help to reduce wear on the strings.

Cord-Winding Device
The length and slightly tapered design allows the strings to spool evenly without overlapping, helping to prevent uneven blinds.

Single-Hand Operator
Attached with four magnets to provide a strong connection to the unit to reduce the potential of the handle becoming detached.

Privacy Bar
Covers the gap between the ends of the blind slats and the edge of the unit to eliminate visibility into or out of the home, as well as reduce sun glare.
