

# CERTIFIED DOOR SYSTEM INSTALLER PROGRAM

**THERMA-TRU®**  
DOORS

Build your knowledge, skills and confidence with comprehensive door system installer training from Therma-Tru – the expert in fiberglass door systems – and OSI – the expert in completely sealing the door opening.

## Expert guidance. Professional results.

Deliver an entry that performs as exceptionally as it looks. The Therma-Tru Certified Door System Installer Training Program walks you through the proper techniques to correctly install a Therma-Tru door system. One that helps provide weather resistance, energy efficiency and smooth operation for years to come, helping to reduce callbacks while increasing customer satisfaction.

### Included in the program:

#### ■ Step-by-Step Videos with Expert Guidance

Learn from the professionals at Therma-Tru and OSI as they take you through a door system installation every step of the way, including:

- The tools needed for a successful install.
- Removal of an existing door and preparing the opening.
- Installing a new door and sealing the opening.
- Adjusting the new door system for smooth operation.
- Finishing touches to complete the installation.
- Application of sealant and foam.
- Building science and wall barriers.

#### ■ Job Aids and Supplement Video Content for Quick On-Site Reference

Gain easy access to instructions that can be printed or viewed digitally.

#### ■ Certified Door System Installer Status

Give your customers confidence in your ability to correctly install their Therma-Tru door system for years of energy efficiency and weather resistance.

#### ■ Certified Door System Installer Certificate & Card

Proof that you've completed the program and have the additional training to ensure professional results.

**They say a door is only as good as its installation.
