

# Get INSPIRED: DESIGN

Choosing Entry Doors by DESIGN

## ARCHITECTURAL HOME STYLES GUIDE

### Product Selection Tips

Get inspired to choose entry doors by design with our INTERACTIVE GUIDE to popular home styles – [www.homestyles.thermatru.com](http://www.homestyles.thermatru.com). Then ask a few simple questions to help narrow down your selection.

### Start with Style

The style of the home is a great place to start.

- What style is your home?
- What design ideas do you have in mind?
- Do you like intricate or simple designs?
- Do you want a stained or painted door?
- What hardware and accessories do you want to complete the look?

### Closing in on the Door

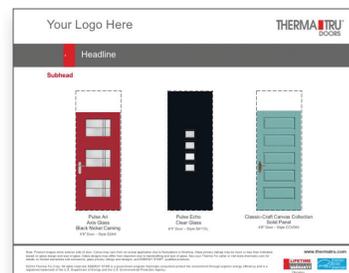

Consider the following to help narrow down your selection.

- Where is the door located on the home? Front entry, patio, utility or house-to-garage?
- What size door do you have or want? From 2'0" to 3'6" widths and 6'6" to 8'0" heights?
- What configuration do you have or want? Single or double doors? Add sidelites or a transom?
- Do you want glass in the door? How much – from full-lite glass to solid-panel doors?
- Do you need options to meet various price points? From premium to cost-conscious?

### Presentation Is Everything

Now you have a few entry door options that bring out the best of the home's style. Present them in style with our customizable sell sheet templates.
