

Decorative & Specialty Glass Collection

THERMA TRU
DOORS

Welcome home the beauty of glass.

2

Home begins
at the door.

By choosing a Therma-Tru® door system with decorative glass, you can create a beautiful, durable entrance that makes a statement – one that says you have high standards for style, quality and craftsmanship. Our wide array of glass designs, from simple to intricate, reflects the home design trends and homeowner desires of today and tomorrow.

With Therma-Tru glass, you can expect the quality and trust that can only come from the Therma-Tru brand. Year after year, Therma-Tru is the most preferred brand of exterior doors chosen by building professionals* because of its outstanding beauty, performance and durability. Entryways come to life with Therma-Tru glass and provide beauty and craftsmanship you can't find anywhere else.

And doors come to life with Therma-Tru glass.

- Numerous glass colors, textures, shapes and coming options complement any Therma-Tru door, and provide flexibility to match any homeowner's personal style.
- Our glass designs are researched to ensure they are highly rated in consumer preference.
- We have decades of experience and technical know-how in creating quality glass designs that deliver optimal performance.
- Therma-Tru decorative glass is handcrafted and built with all-glass bevels for premium quality.
- Backed by a lifetime limited warranty when installed in a fiberglass door system to ensure peace of mind should any issues arise during or after installation.
- All Low-E and clear glass panels are tempered to provide added safety.

*Brand Use Study, 2016 *Builder* magazine.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Classic-Craft® Premium Entryway Glass

Thanks to 13 exclusive decorative glass families and multiple sidelite and transom configurations, you'll find the ideal style to enhance any home when you select a Classic-Craft premium entryway.

Close attention to detail produces truly distinctive designs that showcase and bring your entryway to life.

Beautiful in every way.

More than 10%
wider glass*

**Classic-Craft
Premium Glass**

Standard Glass

- Classic-Craft glass is more than 10 percent wider*, welcoming more light into the home and creating a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- All Classic-Craft clear glass options are Low-E, providing long-term energy efficiency.
- Most decorative, privacy and textured glass options feature triple-pane construction that helps increase energy efficiency.
- Any Therma-Tru glass added to a Classic-Craft entryway is covered by the same outstanding lifetime limited warranty.
- All Classic-Craft sidelites are flush-glazed. This process integrates the glass during the manufacturing process, eliminating the need for a separate lite frame and providing a high-performance weather seal.

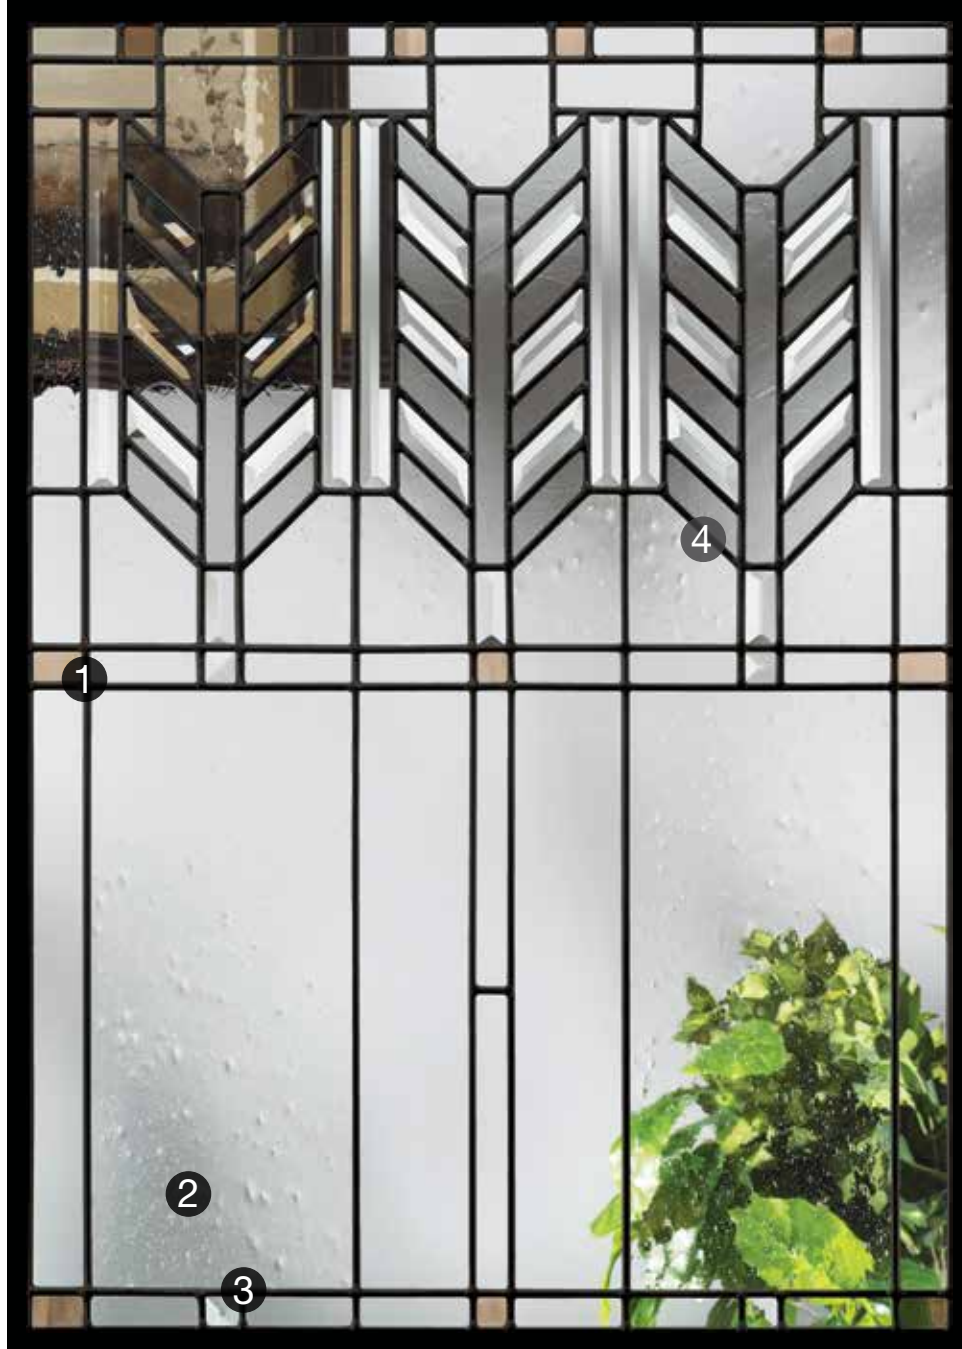

*Comparison of Classic-Craft to other standard fiberglass doors with similar styles. Visit www.thermatru.com for details.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Fiber-Classic®, Smooth-Star®, Profiles™, Traditions, Pulse® Doors

Therma-Tru. Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors offer a variety of decorative glass options designed to meet any taste. This selection is inspired by various home and architectural styles, from Victorian to Contemporary. And whether you need greater energy efficiency or privacy, there's an option to suit you.

Great style for any home.

- 14 decorative glass designs offer a look that matches any home and homeowner's style.
- Invite light into the home for a more brilliant interior with 22" wide glass in a Lip-lite frame, as well as flush-glazed options with 25"– 27" wide glass.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.
- A wide variety of glass that meets ENERGY STAR® requirements is available.

Triple-Pane Construction

All triple-pane decorative, privacy and textured glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

Internal Blinds

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with the simplicity of a single handle.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Choose Low-E glass for exceptional energy efficiency, or standard clear glass.
- A convenient single-hand operator opens, closes and tilts the blinds.
- Privacy bars eliminate visibility into or out of the home, as well as reduce sun glare.
- 47" internal blinds now available in 3/4-lite 6'8" doors and sidelights and 1/2-lite 8'0" doors.

Impact-Rated Glass

Therma-Tru's Impact-rated glass meets coastal region codes and regulations,* offering excellent performance in extreme weather conditions while providing added protection.

- Used for products in coastal applications, Therma-Tru measures the resistance of the glass to flying debris by firing a 2" x 4" wood stud at a speed of 34 mph to help prevent damage inside the home from severe weather.
- Available in 13 decorative glass options, five privacy and textured designs, as well as clear glass.
- Impact Lip-lite frame is constructed of aluminum for superior durability.
- Special laminated glass construction helps protect the interior of the home.
- Tested to meet code requirements in coastal areas, including parts of Florida, Texas, and North and South Carolina.*
- Some glass and door configurations are available for use in High Velocity Hurricane Zone (HVHZ) and Wind-Borne Debris Regions (WBDR).
- Designed to withstand wind forces up to 175 mph (DP-55) for high-wind and coastal applications when paired with an approved Therma-Tru HVHZ Impact-rated door. Able to withstand wind forces up to 167 mph (DP-50) in a Therma-Tru non-HVHZ Impact-rated door.

Therma-Tru. Impact Lip-Lite Frame

The Therma-Tru Impact Lip-lite frame features durable, paintable aluminum construction with an attractive scrolled profile for a thin, sleek appearance and a screw channel cover to hide unsightly screws.

Divided Lites

Enhancing beauty with decorative appeal.

Enhance the beauty of any home with a variety of divided lite options for entry and patio doors. Coordinate with the home's window patterns for a cohesive look and increased curb appeal. Choose from Colonial, Craftsman or Prairie styles to suit the home's architectural details. Available glass options include elegant privacy and textured, energy-efficient Low-E and clear glass.

Simulated Divided Lites (SDLs) with Grilles Between Glass (GBGs)

Shown with flat bronze GBGs.

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- SDL bars layered over GBGs create a more authentic divided lite look.
- Wood-grained or smooth textures can be stained or painted to complement the door and home.
- We recommend applying SDLs over bronze GBGs with flat bars to achieve the most authentic divided lite look.

Available Grid Patterns

Simulated Divided Lites (SDLs)

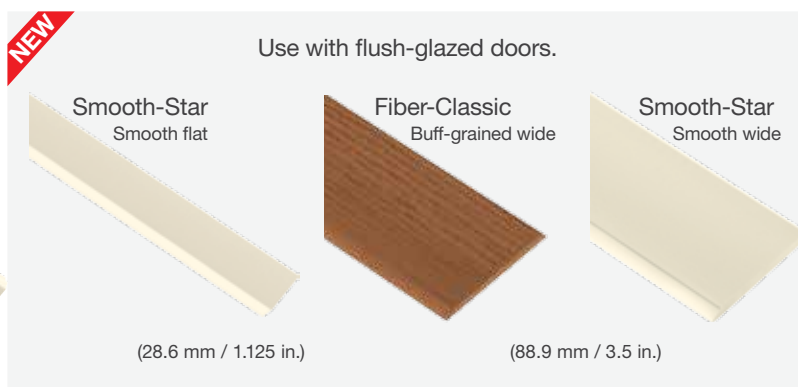

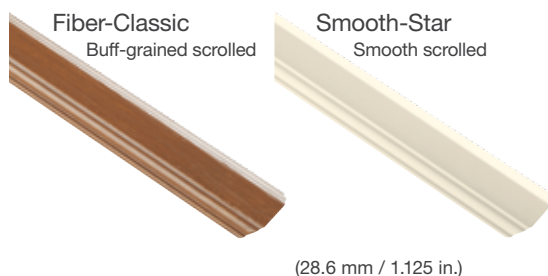

- SDL bars are adhered to the interior and exterior panes of tempered glass.
- Wood-grained or smooth textures can be stained or painted to complement the door and home.

Available Grid Patterns

SDL Bar Options*

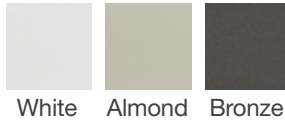

*See your Thermo-Tru seller for a complete list of bars and configurations available for each door collection. Not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight. For additional Wind-Borne Debris Region (WBDR) and High-Velocity Hurricane Zone (HVHZ) details, see page 36.

Grilles Between Glass (GBGs)

- Thermally sealed between two panes of tempered glass.
- Get a divided lite look with the convenience of a smooth, easy-to-clean glass surface.
- Choose contour bars for a traditional look or flat bars for contemporary appeal.

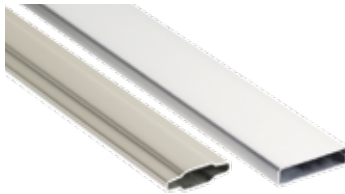

Standard Color Options

Smooth-Star Collection, Clear Glass with SDLs, Door – S2050

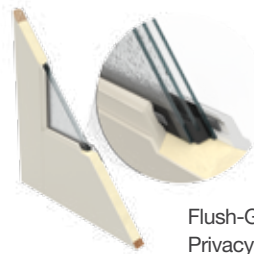

Flush-Glazed Glass

Let the light shine in.

- Glass built directly into the door during manufacturing features clean lines and a seamless appearance.
 - Offers up to a 16% wider daylight opening than conventional glass frames to let more natural light into your home.*
 - Clean design details let you create a variety of looks for today's homes from Classic to Contemporary.
 - A simple profile around the glass makes it easy to clean with fewer places for dirt and dust to hide.
- True flush-glazed construction, crafted with attention to detail, delivers authentic wood door appeal.
- Delivers factory-built, seamless construction with glass built directly into the door for long-term performance.
- Therma-Tru offers a wide selection of flush-glazed doors in a realistic wood grain or sleek, smooth surface with styles, sizes and glass options designed to bring beauty and performance to your home.

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80 percent of Therma-Tru® door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

- Most Therma-Tru decorative glass features triple-pane construction, creating an exceptional thermal barrier.
- Factory-coated Low-E glass comes standard for Classic-Craft®, and Pulse® Ari. Low-E glass is also available as an option for clear glass in all other door families to deliver exceptional energy efficiency.

In cold weather, Low-E glass can help reduce the loss of heat by reflecting the heat back inside the home.

In warm weather, Low-E glass reflects the sun's rays off of the glass helping to keep the interior of the home cool.

Quality Testing

We put our glass through multiple rigorous tests to help ensure it will live up to even the toughest quality and performance expectations.

Slam Test: A glass-fitted door is opened and closed repeatedly. Our slam tests are performed to commercial standards, which are stricter than what is required for residential use, to help ensure the durability and performance of the glass and door.

Frost Point Test: We expose our glass to weather-like conditions to help verify that it does not allow moisture and condensation to get trapped inside, helping to preserve the beauty and quality of the glass.

Lifetime Limited Warranty

We place a lot of emphasis on achieving the highest level of customer satisfaction.

That's why Therma-Tru fiberglass door systems carry a lifetime limited warranty.

Should any issues arise during or after installation, we'll address them in a professional, timely manner.

Special Quote Program

Don't sacrifice the look you want. In addition to thousands of standard glass choices, we offer additional glass options through our Special Quote Program to help you find the right look for virtually any home.

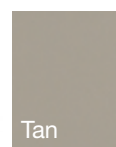

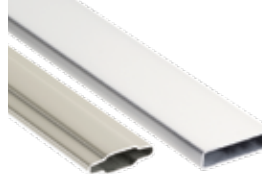

Privacy & Textured Glass

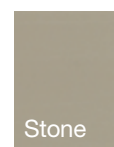

Achieve the desired look and level of privacy with additional options, including hammered glass doorlites shown above.

Inspirational Designs

- With various glass colors, textures, shapes and coming options – designed with varying home styles in mind – Therma-Tru's glass portfolio helps create a stunning look to enhance any entryway.
- Design and visualize your entrance at www.thermatru.com/doorways. Download our app on your smartphone or tablet today.

Engineering Expertise

- We have decades of experience and technical know-how in creating seamless glass and high-performing door systems.
- Rigorous testing and evaluation help ensure the glass and complete door system meet our high quality and performance standards.
- We back our glass with a lifetime limited warranty when installed in a Therma-Tru fiberglass door system.

Market Knowledge

- Our continual market research uncovers glass styles that meet the building needs of our customers, and the look and performance expectations of the homeowner.
- Our glass designs are highly rated in consumer preference and expand your ability to sell more glass in the market to satisfy customer needs.
- Therma-Tru is constantly working to understand changing building regulations and code compliance to provide products that meet or exceed industry standards.

Portfolio Breadth

- Our 27 decorative glass designs, along with privacy and textured glass options, complement various home styles and homeowner desires.
- Divided lite options can complement the windows and architectural style of a home.
- Internal blinds provide privacy without hassles or safety concerns.
- Low-E glass offers outstanding energy efficiency, and more than 80% of Therma-Tru door and glass options are ENERGY STAR® qualified.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and ENERGY STAR qualified products.
