Site Installation Instructions for Adjusta-Fit_ℜ 2

Read *all* instructions carefully before installing your new Therma-Tru Adjusta-Fit 2 system.

Please note there are separate "Prehanging Instructions" to be reviewed and followed prior to completing the installation.

CODES
Building codes may vary from area to area. If a fire rating is required of the door and opening being framed, the installer must use installation materials and methods to satisfy the authority having jurisdiction. Therma-Tru provides labeled products, but bears no responsibility for installation.

Max size inswing sill depth with extender is 7-1/2", inswing field packs 7-1/2" and larger contain 6-1/2" - 7-1/2" sill extender.
No extender for public access sill.
No sill/corridor applcations.

Package includes: Side Trim   Lock & Deadbolt Inserts
                    Head Trim   Jamb Seal Pads
                    Aluminum Extender (if applicable)
                    Fasteners Instructions
                    Sweep (if applicable)
