	<h1>Safety Data Sheet</h1>	SDS No.
		Issue Date: 2016-08-23
	<b>Product Name – PF-1G-RET: Retarder – 1 Gal</b>	Revision Date

**\*\*\* Section 1 - Product and Company Identification \*\*\***

**Manufacturer/Importer Information**

Therma-Tru Corporation  
108 RE Jones Road  
Butler IN, 46721

Emergency Phone: CHEMTREC, U.S. : (800) 424-9300  
International: (703) 527-3887

**Product Identifier**

64-2069

**Recommended Use**

No recommended use available.

**Restrictions on Use**

No restrictions available.

**\*\*\* Section 2 – Hazards Identification \*\*\***

**GHS Classification**

SKIN CORROSION/IRRITATION – Category 2

SERIOUS EYE DAMAGE/EYE IRRITATION – Category 2B

**GHS Label Elements**

**Symbol(s)**

**Signal Word - Warning**

**Hazard Statements**

Causes skin and eye irritation

**Precautionary Statements**

**Prevention**

Wear protective gloves. Wear eye or face protection. Wash hands thoroughly after handling

	<b>Safety Data Sheet</b>	SDS No.
	Product Name – PF-1G-RET: Retarder – 1 Gal	Issue Date: 2016-08-23
		Revision Date

**Response**

IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. Wash contaminated clothing before reuse. If skin irritation occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention.

**Storage**

Not applicable.

**\*\*\* Section 3 – Composition / Information on Ingredients \*\*\***

CAS #	Component	Percent
Not available	2-methyl-1,3-propanediol	-

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

**\*\*\* Section 4 – First Aid Measures \*\*\***

**First Aid: Eyes**

Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention. ingredients

**First Aid: Skin**

Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.

**First Aid: Ingestion**

Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

	<h1 style="margin: 0;">Safety Data Sheet</h1>	SDS No.
		Issue Date: 2016-08-23
	<b>Product Name – PF-1G-RET: Retarder – 1 Gal</b>	Revision Date

**First Aid: Inhalation**

Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects persist or are severe. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt, or waistband.

**\*\*\* Section 5 – Fire Fighting Measures \*\*\***

**General Fire Hazards**

See Section 9 for Flammability Properties.  
 In a fire or if heated, a pressure increase will occur and the container may burst.

**Hazardous Combustion Products**

Carbon monoxide and carbon dioxide.

**Extinguishing Media**

Use extinguishing media suitable for the surrounding fire

**Unsuitable Extinguishing Media**

None known

**Fire Fighting Equipment/Instructions**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

**\*\*\* Section 6 – Accidental Release Measures \*\*\***

**Recovery and Neutralization**

Stop the source of the release, if safe to do so.

**Materials and Methods for Clean-Up**

Small spill: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal container.

	<h1>Safety Data Sheet</h1>	SDS No.
		Issue Date: 2016-08-23
	<b>Product Name – PF-1G-RET: Retarder – 1 Gal</b>	Revision Date

Large spill: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

### Emergency Measures

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

### Personal Precautions and Protective Equipment

If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel."

### Environmental Precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Prevention of Secondary Hazards

None

**\*\*\* Section 7 – Handling and Storage \*\*\***

### Handling Procedures

Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

	<h1>Safety Data Sheet</h1>	SDS No.
		Issue Date: 2016-08-23
	<b>Product Name – PF-1G-RET: Retarder – 1 Gal</b>	Revision Date

### Storage Procedures

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### Incompatibilities

No specific data.

**\*\*\* Section 8 – Exposure Controls / Personal Protection \*\*\***

### Component Exposure Limits

Name (CAS #)	OSHA - PEL	ACGIH - TLV
2-methyl-1,3-propanediol	None established	None

### Engineering Measures

Good general ventilation should be sufficient to control worker exposure to airborne contaminants. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### Personal Protective Equipment: Hygiene

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

### Personal Protective Equipment: Respiratory

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Dry sanding, flame cutting and/or welding of the dry paint film will give rise to dust and/or hazardous fumes. Wet sanding/flattening should be used wherever possible. If exposure cannot be avoided by the provision of local exhaust ventilation, suitable respiratory protective equipment should be used.

	<b>Product Name – PF-1G-RET: Retarder – 1 Gal</b>	Revision Date

### Personal Protective Equipment: Hands

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.

### Personal Protective Equipment: Eyes

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

### Personal Protective Equipment: Skin and Body

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**Conditions to Avoid**

No specific data.

**Incompatible Products**

No specific data.

**Hazardous Decomposition Products**

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

**\* \* \* Section 11 – Toxicological Information \* \* \***

**Acute Toxicity**

**A: General Product Information**

Not available.

**B: Component Analysis - LD50/LC50**

Not available

**Potential Health Effects: Skin Corrosion Property**

Causes skin irritation. Adverse symptoms may include the following: irritation and redness.

**Potential Health Effects: Eye Critical Damage**

Causes serious eye irritation. Adverse symptoms may include the following: pain or irritation, watering and redness.

**Potential Health Effects: Ingestion**

Irritating to mouth, throat and stomach.

**Potential Health Effects: Inhalation**

No known significant effects or critical hazards.

**Respiratory Organs Sensitization/Skin Sensitization**

No known significant effects or critical hazards.

**Generative Cell Mutagenicity**

No known significant effects or critical hazards.

**Carcinogenicity**

**A: General Product Information**

No known significant effects or critical hazards.

	<h1>Safety Data Sheet</h1>	SDS No.

**B: Component Carcinogenicity**

No known significant effects or critical hazards.

**Reproductive Toxicity**

No known significant effects or critical hazards.

**Specified Target Organ General Toxicity: Single Exposure**

This product is not reported to have any specific target organ single effects.

**Specified Target Organ General Toxicity: Repeated Exposure**

This product is not reported to have any specific target organ repeat effects.

**Aspiration Respiratory Organs Hazard**

This product is not reported to have any aspiration hazard.

**\*\*\* Section 12 – Ecological Information \*\*\***

**Ecotoxicity**

**A: General Product Information**

Data available upon request.

**B: Component Analysis - Ecotoxicity – Aquatic and Terrestrial Toxicity**

No ecotoxicity data are available for this product's components.

**Persistence/Degradability**

No information available.

**Bioaccumulation**

No information available.

**Mobility in Soil**

No information available.

**\*\*\* Section 13 – Disposal Considerations \*\*\***

Disposal should be in accordance with applicable regional, national and local laws and regulations.

**Waste Disposal Instructions**

See Section 7 for Handling Procedures. See Section 8 for Personal Protective Equipment recommendations.

	<b>Safety Data Sheet</b>	SDS No.
	Product Name – PF-1G-RET: Retarder – 1 Gal	Issue Date: 2016-08-23
		Revision Date

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.

**\*\*\* Section 14 – Transportation Information \*\*\***

**DOT Information:** Not regulated as a DOT hazardous material.

**\*\*\* Section 15 – Regulatory Information \*\*\***

**Regulatory Information**

**Component Analysis**

No information available.

**SARA Section 311/312 – Hazard Classes**

No information available.

**\*\*\* Section 16 – Other Information \*\*\***

**Disclaimers**

This information is provided without warranty. The information is believed to be correct. This information should be used to make an independent determination of the methods to safeguard workers and the environment.

***Language for consideration:***

Information presented in this Safety Data Sheet for the product(s) described in Section 1 (“Product”) has been compiled from sources considered to be dependable, accurate, and reliable, but manufacturer/importer does not guarantee the accuracy of any information presented. Except as expressly provided otherwise in a written contract executed by manufacturer/importer, to the fullest extent permitted by applicable law, manufacturer/importer disclaims, and the recipient or user of this safety data sheet (“recipient”) hereby expressly waives, any and all warranties, whether express, implied or statutory, with respect to the product or this safety data sheet, and any results or effect obtained from their use by recipient and/or other users, including, without limitation, any statutory or implied warranties of merchantability or fitness for a particular purpose. Manufacturer/importer specifically, but not by way of limitation, disclaims any and all liability for the use or performance of the product or safety data sheet by recipient, recipient’s customers and/or other users.
